Mid-week Field Trip Wednesday April16

To the Old City Cemetery and Old Rose Garden Sacramento

The Old City Cemetery, established 1849, is wonderful place to visit. It is an outdoor museum containing historical gravesites and statues, beautiful landscaping, roads, and walking paths. Its trees contribute to its relaxing environment by providing shade and muffling sounds from nearby streets. There are more than 500 different roses in the garden and at this time of the year many will be in full bloom.

There are other plants, butterflies, squirrels, interesting iron work, stained glass and a lot of history.

A few of the nearby attractions: Old town Sacramento, Sutter's Fort, and the William Land Park.
